

National Success Teams Mastermind Alliance

Release:

Announcing something very new, very different and very REMARKABLE in chiropractic today! National Success Teams Mastermind Alliance is a national group of high-level thinkers and achievers that come together on a very regular basis and synergize thoughts on various topics related to chiropractic. National Success Teams is for chiropractors and chiropractic leaders who desire to surpass current limitations and expectations both personally and within the profession.

This is something new and distinct! We are not affiliated with any Practice Management organization, have no personal agendas and no egos to overcome. We are completely separate, but we synergize with your other programs to produce a result that is far beyond what one program can do alone. Through group discussion, expert insight and personal accountability, members uncover opportunities, strategies and tactics that lead to continuous growth and development for themselves and their practices.

Our goal is to progressively help all chiropractors and the world understand the life changing benefits that come from life long, family wellness/wholeness based chiropractic care as simply and effectively as possible.

If you desire to join forces with other chiropractors from across the nation to share knowledge, wisdom, new ideas, experience and spiritual energy in order to tap into infinite sources of power that can move you, your practice and chiropractic to levels you absolutely know are possible, then call National Success Teams today to request a free information packet.

We are NO DOUBT, changing lives here! Call Jennifer at (214)544-0905.
